

TOP TEN “BEST RESULTS” IN THE UNITED STATES!!

#1 Ranking for Physical Therapy Outpatient Clinics in West Virginia

We were recently notified by Systems4PT (one of the largest Electronic Medical Record platforms for physical therapists in the country) that we achieved, “functional outcome improvements” with our Medicare patients, that placed us in the “TOP 10” in the United States out of a group of over 3000 physical therapy practices that utilize their platform. No other clinic in West Virginia accomplished this achievement. The outcomes were statistically computed from standardized Functional Test Scores completed by each patient at the beginning of therapy and at the end of therapy. The patients that we treated improved more than 99.7% of all other private practices in the United States.

Our focus and #1 priority as a Physical Therapy, Hand Therapy, and Fitness Organization has always been to provide the highest quality of care possible in an upbeat and friendly environment. We were thrilled to discover that our efforts and care for our patients are getting the results we hoped. Our motto “Getting People Better” is actually happening here. If you need therapy, please consider us to be your provider. Thanks to our patients, referring providers, and team.

Sincerely, Todd Warner PT, CHT, Cert. MDT, Owner
